

The Preliminary Design Service Package

Real help with your cabinetry design

The Preliminary Design Services Package (PDSP) enables us to create drawings and a matched quotation that provide you with firm pricing and a design custom-tailored to your needs. Because we can take the necessary time to thoughtfully review your project, you benefit greatly by receiving the most cost-effective solution.

Specifically, the Preliminary Design Services Package includes, on average, 6 to 8 hours of our time and encompasses the following:

- a) Thorough review of project drawings/specifications provided by client
- b) Phone, email and on-site consultations with client as needed to clarify details of the job
- c) CAD time (objective is to create preliminary shop drawings sufficient for confirming project design and for preparing a formal quotation)
- d) Detailed written proposal: including firm quotation for cabinetry, estimated delivery charges, job specifications and terms
- e) Priority in the production queue (best available lead-time)

If you are not in a place yet in which you are ready to move forward and simply want to get a general sense of affordability, send us any drawings of your cabinetry application (even sketches you've made yourself) and your budget range for the job, and we will let you know if it looks feasible. Then, if you are interested in pursuing cabinets by AlterECO, we would suggest moving forward with the PDSP. The cost of the PDSP will be fully applied to the cost of the job. Note that the 6 to 8 hour time-frame is based on typical, local kitchen applications. The following are examples of jobs which may require additional time (billed at the discounted \$50/hr rate): larger than average jobs; complicated jobs; jobs for which there is sparse or confusing foundational information; jobs requiring substantial travel time for site visit.

Please do not hesitate to contact us with questions about our work and this valuable service. If you are ready to proceed with our PDSP, please send a check to AlterECO, or send payment online through www.PayPal.com to PayPal@BambooCabinets.com in the amount of \$300. (this reflects a discounted design rate of \$50/hr –regularly \$65 and up). Again, thank you for your interest in AlterECO, and we look forward to earning your business.
